PROFESSIONAL SUMMARY

iOS Engineer with 3+ years building scalable mobile applications. Expert in Swift, UIKit, and architectural patterns (VIPER, MVVM). Proven expertise in performance optimization, SDK development, and leading product initiatives while mentoring engineering teams.

EXPERIENCE

iOS Developer (SDE II) <i>Zomato</i>	Oct 2024 – Present <i>Gurugram, India</i>
<ul style="list-style-type: none">Implemented end-to-end Order Acceptance flow for Restaurant Partner app, improving order processing efficiency for merchant operationsEngineered robust video caching mechanism with partial caching support, reducing server data transfer costs and improving video load performance for Consumer appDeveloped Lockdown Dish Craving (LDC) rail feature with scalable implementation, enabling dynamic homepage content explorationBuilt Lookback 2024 feature integrating animations, video overlays, and personalized data rendering for year-end user engagementMentoring junior developers on debugging techniques, architectural patterns, and code quality practices	
iOS Developer <i>LikeMinds</i>	Aug 2023 – June 2024 <i>Gurugram, India</i>
<ul style="list-style-type: none">Developed and open-sourced Feed SDK with Instagram-like functionality, enabling seamless plug-and-play integration with features including infinite scrolling, pull-to-refresh, and media cachingBuilt Chat SDK with offline support, ensuring reliable messaging functionality even without network connectivityEstablished CI/CD pipeline using GitHub Actions for automated pod deployment, streamlining the release processEnhanced app performance through efficient memory management strategies and intelligent caching implementations	
iOS Developer <i>TravClan</i>	Aug 2022 – Aug 2023 <i>Gurugram, India</i>
<ul style="list-style-type: none">Led development of Hotels product using VIPER architecture, implementing core booking and payment functionalitiesImplemented new KYC Module for user verification and compliance requirementsOptimized app memory usage and resolved recurring crashes, significantly improving app stabilityMentored junior developers on Swift development practices and iOS design patterns	

TECHNICAL SKILLS

Languages: Swift

Frameworks: UIKit

Architecture Patterns: VIPER, MVVM, MVC

Development Tools: Xcode, Git, GitHub, CocoaPods, Swift Package Manager

Technologies: RESTful APIs, JSON

KEY PROJECTS & ACHIEVEMENTS

Feed SDK – Developed highly customizable plug-and-play Instagram-like feed SDK with features including infinite scrolling, pull-to-refresh, and media caching. Built with Swift and UIKit. Open-sourced and available on GitHub.

iOS Ketchup Event Manager – Managing Zomato's iOS Ketchup Event, facilitating knowledge sharing and team collaboration across the iOS engineering team.

Speaker at Apple Developer Center – Delivered technical talk representing Zomato at Apple Developer Center, sharing insights on iOS 18 integration strategies.

iOS Hiring Team Member – Contributing to candidate evaluation and team growth decisions as part of Zomato's iOS hiring team.

EDUCATION

Maharaja Surajmal Institute of Technology

Bachelor of Technology in Information Technology, CGPA: 8.5/10

New Delhi, India

Aug 2018 – Aug 2022
